

# Water Maid™ bag filter housing

Water Maid's bag filter housings provide cost-effective, reliable solutions for commercial and general filtration needs. They feature a lightweight design and low pressure drop. Made entirely from stainless steel, these housings offer excellent corrosion resistance across a wide range of applications while maintaining consistent filtration performance. The clamp closure and threaded coupling ensure quick and easy sealing, while the modular mounting leg design allows for adjustable housing height.

## Technical specifications

	Bag Size 1	Bag size 2	Bag size 3	Bag size 4
Flow rate*	0 ~ 20 m³/h	0 ~ 45 m³/h	0 ~ 4.5 m³/h	0 ~ 10 m³/h
Material of construction	SUS304, SUS316, SUS316L			
Inlet/outlet type	PT/NPT, JIS/ANSI/DIN Flange, Sanitary Clamp			
Inlet/outlet size (inch)	1, 1½, 2, 2 ½, 3, 4			
Type	Clamp			
Operating pressure (bar g)	7			
Application	Inks & Polymers Filtration, Paints & Lacquer Filtration, Chemicals, Petrochemicals, Electronics, Waste Water Treatment, Food & Beverage, Pharmaceuticals, Pre RO/DI			

\*Actual flow rates will be determined on element selection and fluid viscosity.
